

## **Our Philosophy**

Creando Little Language Explorers believes that every child will benefit by learning a second language. In addition to improving their own cognitive development and learning abilities across many areas, children who learn a second language will become better global citizens through cultural awareness and the ability to communicate with more people around the world.

## **Our Mission**

- Engage in active play through movement, music, and dance.
- Encourage children to explore, learn, and play with all their senses.
- Create a communication and language system that works for each explorer.
- Improve confidence and the desire to learn by moving at each child's own pace.
- Construct ideas of the world by acquiring basic vocabulary, math, science, and social skills.
- Create social and trusting relationships by providing a positive and fun environment.
- Provide attentive responsiveness and stimulation to foster confidence in the new language.
- Encourage children to solving problems and become independent through exploration and play.
- Engage in creative participation by exploring, artistic projects, pictures, and imitation and pretend play.
- Provide a home based learning approach that offers a sense of security and a familiar environment.
- Gain a sense of self by exploring, playing, and gaining confidence in their developing language skills.
